AUTHOR INDEX TO VOLUME 34*

ALBERT DAN G: Frank Duncan Costenbader, M.D.: Personal Reminiscences, **106**

ALTMAN R PETER, *see* CHAMBERLAIN JL III, et al

ANDERSON ROBERT H: Correspondence, **26**

ARROBIO JULITA O, *see* Brandt CD, et al

BARNESS LEWIS A: Correspondence, **85**

—Malnutrition in adolescence, **1**

BELLANTI JOSEPH A, *see* KULCZYCKI L, *et al*

BELMAN A BARRY: Urinary tract infections in children, **51**

BRALLIER DAVID R: Interhemispheric subdural empyema: CT Diagnosis (*Problems in body imaging*), **316**

BRANDT CARL D, KIM HW, ARROBIO JO, CHANOCK RM, PARROTT RH: Virus and *Mycoplasma pneumoniae* infections in respiratory disease patients, January 1975–June 1976, **147**

BROOK, ITZHAK: Aerobic and anaerobic bacteriology of acute otitis media in pediatric patients, **158**

—The isolation of anaerobic bacteria and their role in pediatric infections, **303**

—*see* CONTRONI G, et al

BURKE FREDERIC G: Paediatric Implications for Some Adult Disorders (*BRev*), **27**

BUTCHER SANDRA: The Truly Cured Child: The New Challenge in Pediatric Cancer Care (*BRev*), **199**

CHAMBERLAIN JOHN L III, ALTMAN RP, MARGILETH AM: Pediatric abdominal masses: diagnostic approach, **143**

CHANOCK ROBERT M, *see* BRANDT CD, et al

COHEN GEORGE J: Correspondence, **194**

—Lead poisoning: importance of screening, **188**

CONTRONI GUIDO, RODRIGUEZ WJ, FICKE M, KHAN W, BROOK I: Isolation of enteropathogenic *Escherichia coli* in children at CHNMC, **66**

—*see* BROOK I

CORBETT DELORES: Crisis nursing management of handicapped children and their families, **296**

CORNELIUS C RICHARD: Informed consent: a useful physician tool in averting legal consequences, **60**

COSTENBADER FRANK D: Bibliography, **137**

—Office evaluation of vision in children, **130**

EPSTEIN BURTON S: Correspondence, **193**

FICKE MARION, *see* CONTRONI G, et al

FRANK JANE L: Ganglioneuroblastoma: a cause of silent mediastinal mass (*Problems in body imaging*), **75**

FRIENDLY DAVID S: The department of ophthalmology: development and current status, **110**

GALIOTO FRANK M JR: Cardiac evaluation of the child for sports participation, **250**

GLATT MILTON: Hyperactive Children: Diagnosis and Management (*BRev*), **196**

SUBJECT INDEX TO VOLUME 34*

Abdominal masses, pediatric: diagnostic approach (Chamberlain, Altman, and Margileth), **143**
Abstracts of recent publications by CHNMC staff, **30, 333**
Adenocarcinoma (*see* Colon cancer)
Adolescence (*see* Malnutrition)
Aerobic and anaerobic bacteriology of acute otitis media in pediatric patients (Brook), **158**
Allergy 1984 (Howard), **37**
Amputated fingertip injuries in children (Wilensky), **165**
Anaerobic bacteria, isolation of, and their role in pediatric infections (Brook), **303**
Antiviral chemotherapy, present status of (Sever), **44**
Blood component therapy (Luban), **81**
Book reviews:
Child Language: an Interdisciplinary Guide to Theory and Research, by Adele A. Abrahamsen, Ph.D., **198**
Clinical Cardiology, by M. Sokolow, M.D. and M.C. McIlroy, M.D., **198**
Coping with Tragedy: Successfully Facing the Problems of a Seriously Ill Child, by Jerome L. Schulman, M.D., **196**
Hyperactive Children: Diagnosis and Management, by Daniel J. Safer, M.D., and Richard P. Allen, Ph.D., **196**
Newborn Intensive Care: Chemical Aspects, by Toshiko Hirata, M.D. and June P. Brady, M.D., **29**
Paediatric Implications for Some Adult Disorders, edited by Donald Barltrop, **27**
Perinatal Medicine, by Hugh Evans, M.D. and Leonard Glass, M.D., **28**
The Truly Cured Child: The New Challenge in Pediatric Cancer Care, edited by Jan Van Eys, **199**
Cardiac evaluation of the child for sports participation (Galioto), **250**
Colon cancer in a 10-Year-Old Girl (Wahl), **16**
Congenital heart disease, office management of (Shapiro), **210**
—*see* Electrocardiogram
—*see* Genetics
Consent, informed: a useful physician tool in averting legal consequences (Cornelius), **60**

* Issue Number 1, pp 1–34; Number 2, pp 35–90; Number 3, pp 91–142; Number 4, pp 143–206; Number 5, pp 207–282; Number 6, pp 283–341.

Correspondence, **26, 85, 193,**
Costenbader, Frank D: Bibliography, **137**
—A brief biography (O'Neill), **95**
—The department of ophthalmology: development and current status (Friendly), **110**
—The development of pediatric ophthalmology (Parks), **101**
—Epilogue, **140**
—Personal reminiscences: an interview with Dan G. Albert (Harteker), **106**
Cystic fibrosis (*see* Immunologic studies)
Distractability (*see* Learning problems)
Echocardiography, pediatric, an introduction to (Perry), **239**
Electrocardiogram in children with congenital heart disease (Napolitano, Guller), **171**
Escherichia coli, enteropathogenic, isolation of in children at CHNMC (Controni, Rodriguez, Ficke, Khan, Brook), **66**
Ganglioneuroblastoma, *see* Problems in body imaging
Genetics of congenital heart disease (Rosenbaum), **255**
Granulomatoid skin lesions: clinical diagnosis and management (Margileth, Rigtrup), **283**
Handicapped child, crisis nursing management of (Corbett), **296**
Hospital Library, recent acquisitions of, **87**
Hypertension, evaluation of in children (Hepner), **271**
Immunologic studies of sera and gastrointestinal secretions in patients with cystic fibrosis and a control group (Kulczycki, Bellanti, Sanga), **290**
Incontinence, *see* Urinary tract
Introduction, **93**, 209
Lead poisoning, importance of screening (Cohen), **188**
Learning problems, examination of 'distractability' in the child with, (Ozer), **10**
Legal issues, *see* Consent
Leukemia, *see* Problems in body imaging, **184**
Lymphocyte receptors, T & B: their use in clinical disease (Leikin), **180**
Malnutrition in adolescence (Barness), **1**
Mustard's operation, *see* Transposition
Mycoplasma pneumoniae infection, *see* Virus
Nursing management, *see* Handicapped
Open heart surgery, assessment of results following (Scott), **224**
Ophthalmology, *see* Costenbader
Osteopenia, *see* Problems in body imaging
Otitis media, *see* Aerobic and anaerobic bacteriology
Pancreatic pseudocysts, *see* Problems in body imaging
Patent ductus arteriosus in premature infants (Shapiro), **263**
Problems in body imaging:
—Acute lymphoblastic leukemia (Lingard, McSweeney), **184**
—Ganglioneuroblastoma (Frank), **75**
—Interhemispheric subdural empyema (Brallier), **316**
—Pancreatic pseudocysts (Potter), **21**
Rectal ulcer, solitary, in children (O'Connor), **152**
Research Foundation, Investigations in progress, **327**
Respiratory disease (*see* Virus)
Sports medicine (*see* Cardiac evaluation)
Subdural empyema, interhemispheric (*see* Problems in body imaging)

Transposition of the great vessels, prevalence of sudden unexpected death following Mustard's operation for (Scott, Perry, Shapiro, Saalouke), **235**
Urinary tract, incontinence and the functioning upper pole segment in complete duplication of (Immergut, Troendle), **6**
Urinary tract infections in children (Belman), **51**
Virus and *Mycoplasma pneumoniae* infections in respiratory disease patients, January 1975–June 1976 (Brandt, Kim, Arrobio, Chanock, Parrott), **147**
Vision, office evaluation of, in children (Costenbader), **130**
